

THE SNOWMAKING PEAK UNIT CONCENTRATES THE POSITIVE CHARACTERISTICS OF ALL SUFAG SNOWMAKING MACHINES WITH EXCELLENT ENERGY EFFICIENCY.

- Compact snowmaking gun with robust steel construction
- 15 % higher efficiency
- Quiet operation
- Unparalleled snow quality at marginal temperatures

✓ GENERAL

Snowmaking capacity	Up to 96 m ³ /h
Operating water pressure	Min 8 - Maxi 40 bar
Dimensions (mm) L x W x H	1668 x 1228 x 1801
Weight on base frame	690 kg
Swivel mechanism	Electrical
Tilt	Electrical
Filter mesh	200 µm
Fan speed	1450 RPM
Range (Gnd / tower/swivel arm)	40 / 60 / 90 m
Working modes	Automatic / autonomous / manual

+ OPTIONS

Oil free air compressor	
Carriers : mobile, gunlifter, swivel arm	
Nozzles with hard surface treatment for aggressive water	
Preventive maintenance service offer	

❄️ PULVERIZATION

Nucleation nozzles	45 pieces
Water nozzles	310 pieces
Material	Nickled plated stainless steel <i>other materials available</i>
Ring	Heavy duty forged alloy

⚡ ELECTRICAL DATA

Fan	15,0 kW
Compressor	4,0 kW
Controlled heating from 0 to 4kW	2,0 kW
Total average power	21 kW
Voltage / Frequency	400V - 50/60 Hz
Breakout cable with CEE	63 A

⚙️ AUTOMATION

Semi-auto / Fully automatic
GSSystem operating system
Operation Costs & Energy optimized
Hard wired, fiber optics, radio communication
