

NEW &
IMPROVED
DESIGN

FOLK LANCE IS THE MOST COST-EFFICIENT SNOWGUN OF THE SUFAG RANGE.

- Compact and light design with single extrusion
- Economical snowgun with new block valve for manual regulation.
- Easy operation and maintenance
- Better snow distribution with optimized projection flow
- 4 production thresholds

✓ GENERAL DATA

Weight	49 kg
Height	8 m
Bracket	360° adjustable
Material	Aluminium

⚡ ELECTRICAL DATA

Power input	0 kW (4 kW with compressor)
-------------	-----------------------------

❄️ PRODUCTION

Thresholds	4 automatic production thresholds
Start-up temperature	From -3°C WBTI
Snow production	From 45 to 62 m3/h
Air consumption	40 / 80 m3/h
Nozzles	12 nozzles + 4 nucleator nozzles

💧 HYDRAULIC DATA

Water pressure	15 to 50 bars
Water connection	1"1/2 Stainless steel Camlock coupling
Air connection	1/2" Stainless steel Camlock adapter

🧠 AUTOMATION

Manual / Semi-auto
Compatible with GSSystem operating system
Operation Costs & Energy optimized
Hard wired, fiber optics, radio communication

+ OPTIONS

Network connected or standalone model (with compressor)
Standalone
Inline filter option for additional equipment protection
Preventive maintenance service offer
